

SILAS KIBET

Statistician | Data Analyst

Nairobi, Kenya | P: +254 708 080 063 | silaskibet877@gmail.com | linkedin.com/in/silas-kibet-b35449227

PROFESSIONAL SUMMARY

Detail-oriented Statistician with a B.Sc. in Applied Statistics with Computing and a Minor in Economics. Proven track record in public sector data collection with KNBS, field supervision with the State Department for Social Protection, and hands-on data science experience gained during an internship at the Kenya Revenue Authority (KRA).

EDUCATION

WorldQuant University

Applied Data Science Lab

Project-Based Learning: Completing an intensive residency focused on end-to-end data science projects, including house price prediction models and climate data analysis.

Nairobi, Kenya

Jan 2026 - May 2026

MOI UNIVERSITY

Bachelor of Science in Applied Statistics with Computing

Major in Statistical Analysis & Data Science; Minor in Economics

Cumulative GPA: 3.60/4.0; Second Class Upper Division

Relevant Coursework: Data Analysis, Economics, Data Science; Algorithms; Artificial Intelligence

Eldoret, Kenya

Sep 2018 - Dec 2023

MANG'U HIGH SCHOOL

Kenya Certificate of Secondary Education

Mean Grade: B

Juja, Kenya

Jan 2014 - Dec 2017

WORK EXPERIENCE

EMTECH

Data Science Apprentice

Tatu City, Kenya

Jun 2026 – Present

- Regulatory Compliance (RegTech): Automating reporting and monitoring to ensure companies comply with strict financial regulations (like AML/KYC) and central bank standards.
- Risk Assessment & Fraud Detection: Analyzing transaction patterns and operational data to detect anomalies, flag potential fraud, and assess market risks in real-time.
- Market & Performance Dashboards: Transforming raw API data from financial service providers into clear visualizations that help stakeholders (like regulators or executives) understand market activity and operational health.

Kenya Revenue Authority (KRA)

Data Science Intern

Nairobi, Kenya

Jan 2025 – Dec 2025

- Built Superset dashboard to visualize core business KPIs (e.g. Monthly Recurring Revenue), saving 10 hours per week of manual reporting work
- Supporting tax analytics and compliance monitoring using Python and Excel
- UAT & Validation: Conducted data validation and user testing on taxpayer classification models to ensure accuracy in automated revenue collection strategies.
- Business Documentation: Proficient in creating Business Requirement Documents (BRDs), User Stories, and Process Flow Diagrams.

State Department for Social Protection

Field Supervisor

Iten, Kenya

Apr 2024 - Jun 2024

- Managed field teams during social protection surveys
- Oversaw data collection and ensured reporting accuracy

Kenya National Bureau of Statistics (KNBS)

Statistical Assistant Attachee

Iten, Kenya

Jan 2022 - Apr 2022

- Cleaned and tabulated household survey data- Contributed to county statistical abstracts
- Assist with survey design and questionnaire development

PROJECTS

Multi-factor Analysis of Life Expectancy Variations in Kenyan Counties Jan 2023

- Built predictive models to identify socio-economic and health factors affecting life expectancy across Kenya's 47 counties, providing insights for public health policy and resource allocation
- Conducted data preprocessing and feature engineering on multi-dimensional county datasets, creating visualizations to support health planning and resource allocation decisions

Multi-factor Tax Risk Engine for Automated Taxpayer Classification Apr 2025

- Created machine learning-based risk engine for KRA to categorize taxpayers using K-means clustering and multi-dimensional risk factors, improving compliance monitoring
- Implemented data-driven taxpayer segmentation to identify high-risk entities, enabling KRA to optimize resource allocation and enhance revenue collection strategies

LEADERSHIP & ACTIVITIES

Everything Data Africa Nairobi, Kenya

Data Science Mentee Mar 2025 -Jul 2025

- Participated in structured data science training program covering statistical analysis, machine learning algorithms, and data visualization techniques
- Engaged with the African data science community through networking events, workshops, and knowledge-sharing sessions

Data Analytics station(KRA) Nairobi, Kenya

Station Lead Feb 2025 -Jul 2025

- Led a team of data analytics interns and ensured consistent work quality across team deliverables
- Served as primary point of contact between intern team and the Manager

Science Students Association(Moi University) Eldoret, Kenya

Vice Chairman Jan 2020 – Dec 2020

- Assisted Chairman in strategic planning and executive decision-making for science student community
- Organized academic conferences, science fairs, and networking events for students across science departments

CERTIFICATIONS & TRAINING

- Google Data Analytics Professional Certificate
- IBM Data Analyst Professional Certificate
- Huawei: Data Management and Analysis
- Microsoft & LinkedIn: Career Essentials in Data Analysis
- Huawei: Artificial Intelligence
- Oracle Artificial Intelligence and Data Science Certificate
- IBM AI fundamentals
- AWS UDACITY Generative AI
- CISCO Data Analytics
- Corporate career academy cca certificate on evolving employability skills and emerging careers.
- Power Learn Project(PLP) - AI Safari - continuing

ADDITIONAL

Technical Skills: Advanced in SQL, Python, R, Machine Learning (Scikit-learn, TensorFlow); Proficient in Statistical Analysis, Data Visualization (Matplotlib, Seaborn, Plotly), Pandas, NumPy, Jupyter Notebooks, Apache Superset, Power BI, Excel, Git/GitHub

Professional Skills: Advanced in Leadership & Team Management, Strategic Communication, Complex Problem-solving; Proficient in Stakeholder Engagement, Project Coordination, Data Interpretation, Public Speaking

Languages: Fluent in English and Swahili. Conversational Proficiency in German
